

Lafayette College - LANTA College Pass

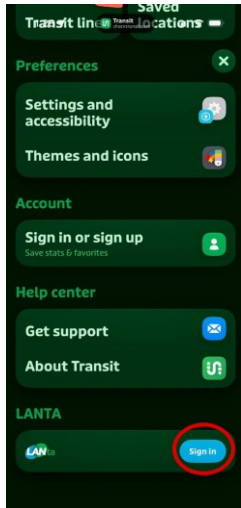

Student Setup Guide | Complete both steps before your pass can be issued

Student setup has TWO parts: 1) Create your Transit / LANTA account 2) Create your mobile barcode

STEP 1 - Create your account

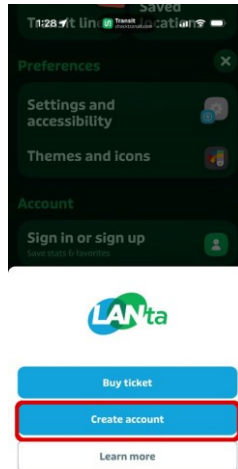

Use your Lafayette College email address. Account setup must be completed while you are in the Lehigh Valley/LANTA service area.

1. Open LANTA

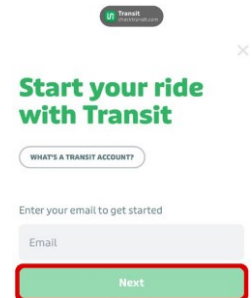

In Transit, open the LANTA section and tap Sign in.

2. Create account

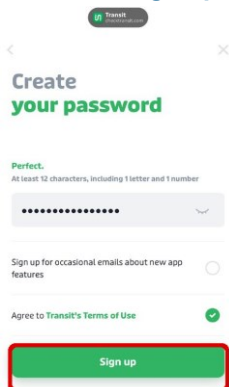

Tap Create account.

3. Enter email

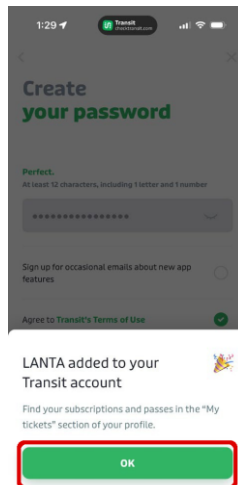

Enter your Lafayette email address and tap Next.

4. Finish sign-up

Create your password, accept the Terms of Use, and tap Sign up.

5. Confirm LANTA

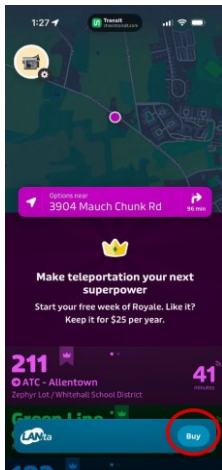

When "LANTA added to your Transit account" appears, tap OK.

Do not stop here. You must also complete Step 2 on the next page so Lafayette can issue your pass.

STEP 2 - Create your mobile barcode

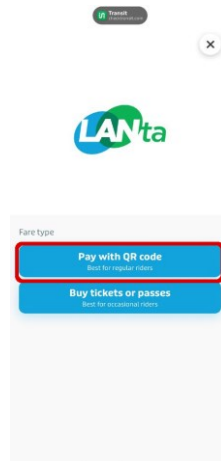

This setup is required before Lafayette can issue the college pass to your account

1. Open LANTA

From the main Transit screen, tap Buy in the LANTA section.

2. Choose QR code

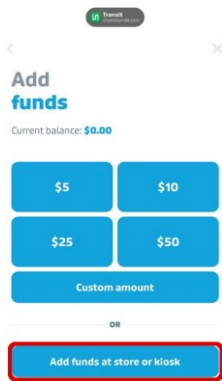

Tap Pay with QR code.

3. Use mobile phone

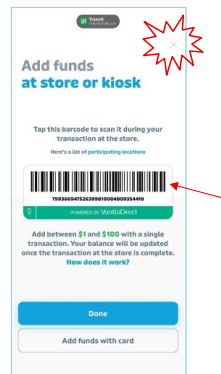

Tap Pay with your mobile phone.

4. Open barcode screen

Tap Add funds at store or kiosk.

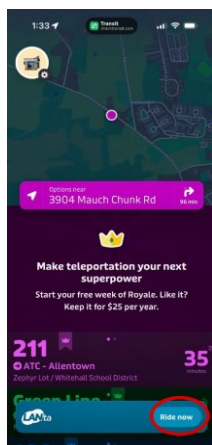

5. Barcode appears

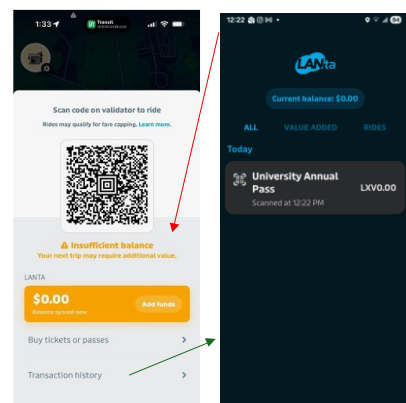

Once this **barcode** appears, your setup is complete. Press X to close this screen.

IMPORTANT: You do NOT need to add money or go to a store. You only need the barcode to appear. This completes the setup Lafayette needs before the pass can be issued.

AFTER LAFAYETTE ISSUES YOUR PASS

1. Open Transit and tap Ride now in the LANTA section.

2. Tap the QR code on the bus validator to ride. **An "Insufficient balance" message can be normal after your Lafayette pass has been issued.** You can view Transaction History once you've used the pass to confirm that the app used the Annual Pass.
